Franklin County Home Repair Program Production Chart

Project Example 1

- FY2015 Funding Round
- Home to 1 female adult

Summary of Job:

- Identified through Weatherization program due to structural damage beneath the furnace
- Bathroom and hallway flooring were severely damaged
- Subflooring was removed and replaced
- New floor covering was installed
- New shower, toilet and vanity were installed in the bathroom
- Faucets and exhaust fan was installed in the bathroom
- New Furnace was installed

“I did not have any heat in my home. The contractors installed my furnace and it has worked very well. My bathroom is absolutely beautiful and I am very appreciative for the program and the opportunity. The end result is wonderful.”

-Homeowner

Project Example 2

- FY 2015 Funding Round
- Home to 2 married elderly adults

Summary of Job:

- Identified through Weatherization due to severe roof leak that prevented attic insulation and air sealing measures
- Removal and installation of a new roof, gutters and downspouts
- Water damaged ceiling was replaced with new drywall and painted
- New water heater was installed

“My husband and I are just thrilled and we do not know what we would have done without you. The roof was leaking so badly and we did not have hot water either. The contractors took great care of us and we are grateful for programs and people like you that really care.”

-Homeowner
