WHAT IS IT AND WHY IS IT IMPORTANT?

The US 33/SR 161/Post Road Widening Industrial Parkway Relocation project upgrades the existing rural interchange at US 33/SR 161/Post Road into an urban interchange. This project seeks to address increasing congestion in the area, which provides a critical link between US 42 and I-270. The proposed changes will include two new loop ramps that will eliminate the existing left turn conflicts to enter the US 33 ramps. The intersections with both the east and west ramp terminals will be controlled via multi-lane roundabouts that will ensure viable traffic operations well into the future.

WHAT IS THE TRAC REQUEST?

This TRAC request is \$20.68 million for construction. This project has the strong financial support of local governments, with the City of Dublin and Union County committing 52% of the total project cost.
