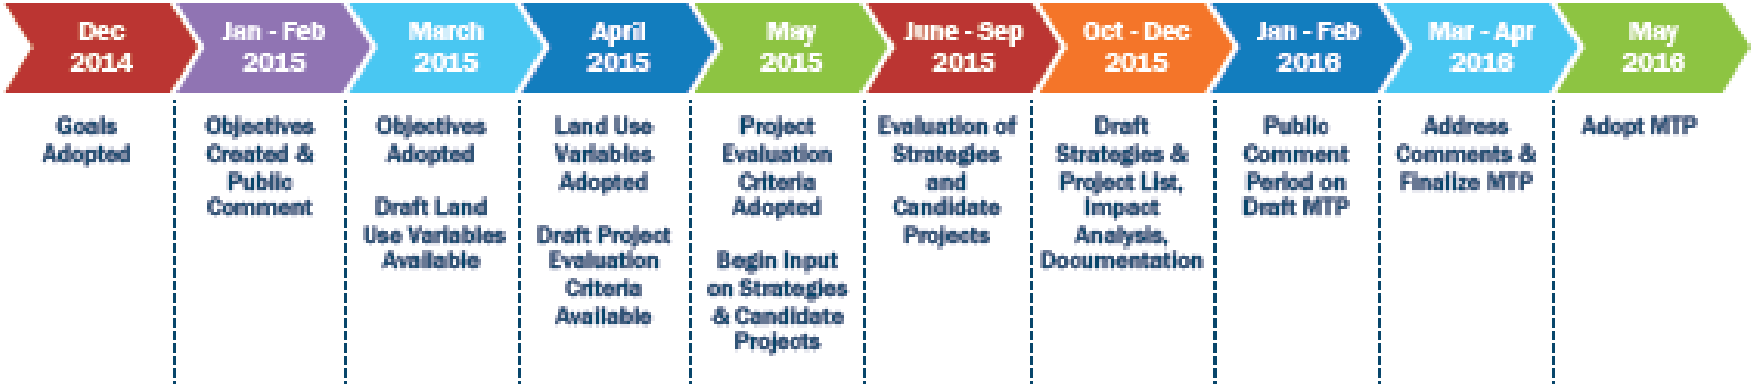
MORPC 2016-2040 METROPOLITAN TRANSPORTATION PLAN
JUNE - AUGUST 2015
VOLUME 5

METROPOLITAN TRANSPORTATION PLAN DEVELOPMENT PROCESS

The Metropolitan Transportation Plan (MTP) is a long-range planning document that brings together local governments from around Central Ohio and other local, state, and federal agencies to identify and coordinate transportation goals and policies over the next two decades. The MTP will identify transportation needs, strategies, and projects, and provide the basis for how federal transportation funding will be spent to improve highways, transit, freight, bikeways, and pedestrian facilities.



Work on the 2016-2040 MTP is underway. The goals of the plan were established in December 2014. Most recently, the project evaluation criteria were adopted in May 2015. Currently, candidate transportation projects are being compiled for evaluation and potential inclusion in the plan. More information on these milestones is available at www.morpc.org/mtp2040.
