Mid-Ohio Regional Planning Commission

The Mid-Ohio Regional Planning Commission (MORPC) is a voluntary association of local governments in Central Ohio. Franklin County and nearby counties as well as their cities, villages and townships are eligible for membership. Elected and appointed officials sit on the Commission, which is the policy-making body of the organization.

As a regional planning commission, MORPC has the flexibility and capability to be responsive to its members' needs. MORPC assists with planning and implementing programs in areas of energy conservation, infrastructure, transportation, land use, economic prosperity, environmental protection and others.

MORPC serves as a forum for state and local governments on regional issues and helps represent local communities' interests and needs at the state and federal levels. MORPC recognizes and encourages public and private collaboration on a regional basis and works to build consensus, sound planning practices and realistic decision making for the future. Because of MORPC's role in the region, MORPC's Transportation Policy Committee was originally designated the Metropolitan Planning Organization (MPO) for the Columbus urbanized area in 1964 and re-designated in 1973.

As the MPO, MORPC's Transportation Policy Committee conducts the federally required 3C (continuous, cooperative and comprehensive) transportation planning process. This process results in plans and programs that consider all transportation modes and supports the goals of the metropolitan transportation plan. It is the basis for the development of the 20-year Metropolitan Transportation Plan and the 4-year Transportation Improvement program (TIP). The plans and programs lead to the development and operation of the region's integrated, multimodal transportation system that facilitates the efficient and economic movement of people and goods.

MORPC's Data and Mapping services provides quick answers to specific questions or performs analysis that helps inform decision makers about transportation, housing, economics, environment, energy, or sustainability policies. MORPC serves as a clearinghouse for Census data; population, housing and job forecasts; traffic counts; historic aerial photography; and downloadable GIS data.

MORPC provides support and expertise for local governments to align community needs proactively with regional energy use and development, including regional air quality forecasting and alerts; Residential Energy Efficiency programs; policy and programs related to cleaner air, financing, energy reliability and infrastructure; and manufacturing, building, and housing energy assessments.

MORPC provides services and planning to serve and enhance Central Ohio's natural environment; and to improve quality of life, public health, and economic prosperity and growth through bicycle and pedestrian planning, complete streets policies and tools, local foods, transportation safety and greenways and water quality.

MORPC provides a number of housing services to help stabilize and redevelop neighborhoods in communities around Central Ohio. Services vary by community and include home repairs.

Limited English Proficiency

Compliance with Title VI includes Limited English Proficient (LEP) persons. The Limited English Proficiency (LEP) portion of this plan addresses Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color or national origin. In 1974, the U.S. Supreme Court affirmed that the failure to ensure a meaningful opportunity for national origin minorities with limited-English proficiency to participate in a federally funded program violates Title VI (Federal-Aid Recipient Programs & Activities) regulations.

Additionally, requirements are outlined in Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, signed on August 11, 2000. Its purpose is to ensure accessibility to programs and services to eligible persons who have limited proficiency in the English language. Furthermore, the U.S. Department of Transportation (DOT) published Policy Guidance Concerning Recipients' Responsibilities to Limited English Proficient Persons in the December 14, 2005 Federal Register, Volume 70; Number 239. The guidance explicitly identifies Metropolitan Planning Organizations (MPOs) as organizations that must follow this guidance. The Limited English Proficiency (LEP) Plan must be consistent with the fundamental mission of the organization, though not unduly burdening the organization.

Federal Transit Administration's Circular FTA C 4702.1B, October 1, 2012, provides recipients of FTA's financial assistance with guidance and instructions necessary to carry out U.S. DOT Title VI regulations (49 CFR, part 21) and to integrate into their programs and activities considerations expressed in the Department's Policy Guidance Concerning Recipients' Responsibilities to Limited English Proficient (LEP) Persons (70 FR 74087, December 14, 2005).

In March 2014, MORPC approved Resolution T-1-14: "**REQUESTING APPOINTMENT OF THE TRANSPORTATION POLICY COMMITTEE AS THE DESIGNATED RECIPIENT FOR FEDERAL TRANSIT ADMINISTRATION SECTION 5310 FUNDS FOR THE COLUMBUS URBANIZED AREA**". T-1-14 appointed the Transportation Policy Committee as the Designated Recipient for FTA's §5310 (*Enhanced Mobility of Seniors and Individuals with Disabilities*) funds for the Columbus Urbanized Area with all of the responsibilities incumbent upon that appointment.

Plan Summary

MORPC has developed this *Limited English Proficiency Plan* to identify reasonable steps for providing language assistance to persons with limited English proficiency (LEP) who wish to access MORPC services. As defined in Executive Order 13166, LEP persons are those who do not speak English as their primary language and who have limited ability to read, speak, write or understand English.

This plan outlines how to identify a person who may need language assistance, the ways in which assistance may be provided, staff training that may be required, and how to notify LEP persons that assistance is available. In order to prepare this plan, MORPC undertook the U.S. DOT four-factor LEP analysis which considers the following factors:

1. The number or proportion of LEP persons in the service area who may be served or are likely to encounter a MORPC program, activity or service.
2. The frequency with which LEP persons come in contact with MORPC programs, activities or services.
3. The nature and importance of programs, activities or services provided by MORPC to the LEP population.
4. The resources available to MORPC and overall cost to provide LEP assistance.

A summary of the results of MORPC's four-factor analysis is in the following section.

FOUR FACTOR ANALYSIS

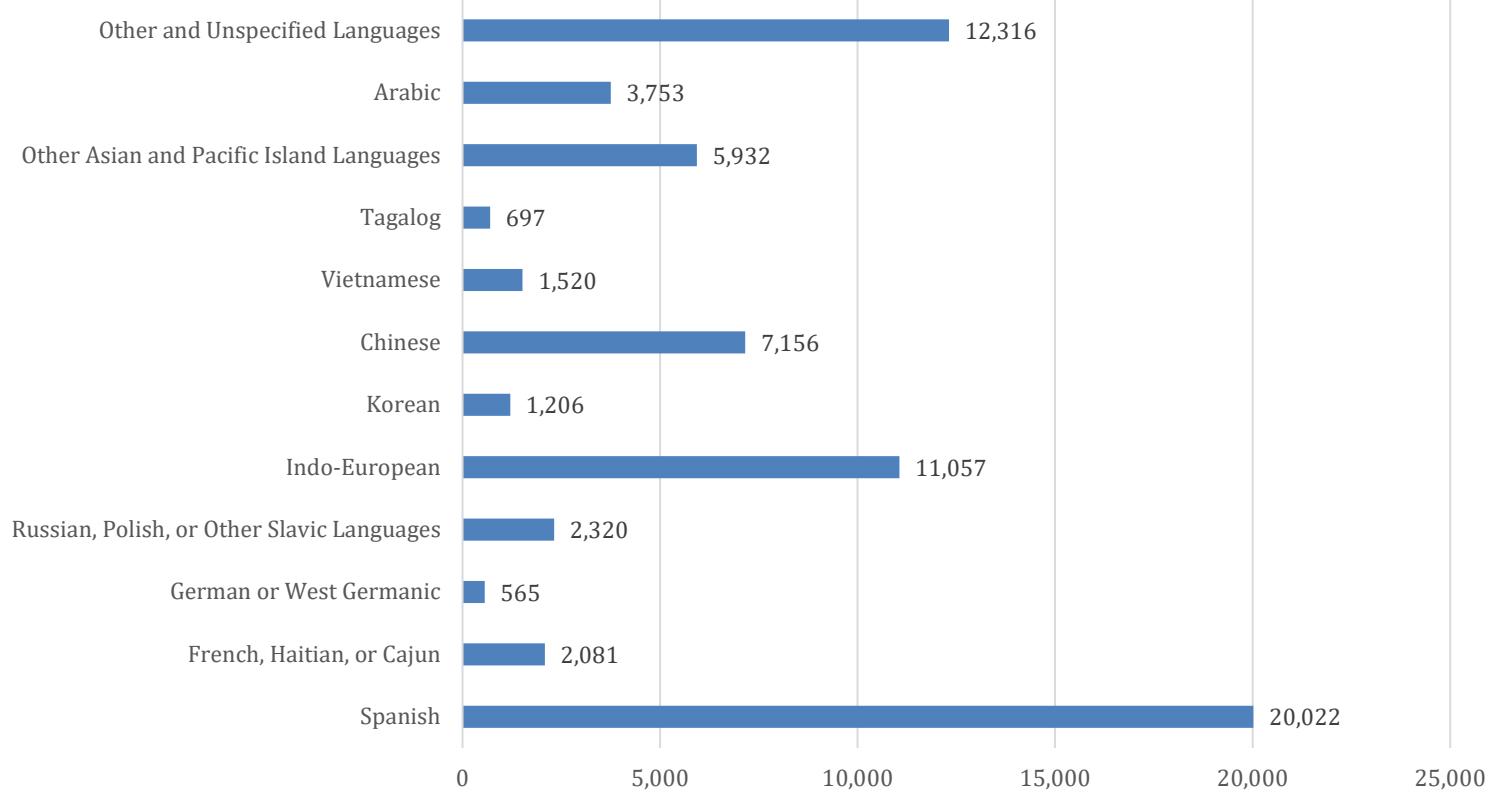

LEP Persons Encountered by the Services

MORPC collaborates with the general public, local communities, transit agencies, county engineers and the Ohio Department of Transportation to conduct the federally required metropolitan planning process for the region and to identify transportation projects for funding. MORPC does not provide bus service, rail service or other transportation services to the public other than a rideshare program.

MORPC has additional programs that interact with or could interact with LEP persons:

- Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities program provides Federal funding to improve mobility for seniors and people with disabilities. This program distributes grant funds for capital expenses for vehicles and related equipment used to transport seniors and people with disabilities and activities related to mobility management. Funds may also be used for operating projects, travel training to instruct persons with disabilities on using fixed-route bus services, and capital projects to remove barriers at bus stops for persons with disabilities.
- The Residential Energy Efficiency program improves the comfort of homes and creates energy savings for income-eligible renters and homeowners in Franklin County. These free services are available year-round in Franklin County and include assessment of the home to identify energy improvements.
- MORPC Housing Rehab program helps low- and moderate-income homeowners maintain and improve their homes through several housing rehabilitation programs. With funding provided by multiple agencies, MORPC has programs available to help with exterior repairs, emergency repairs and whole home rehabilitation. Basic program eligibility requirements are based on total household income, ownership of the home, and area of residency.
- MORPC's Gohio program promotes sustainable transportation alternatives with the goal of reducing congestion in the region, saving commuters on their fuel costs and improving the environment.
- MORPC's Air Quality Awareness program seeks to address our region's air quality issues, and to inform and alert the public, local governments, businesses, organizations and individuals of the actions they can take to protect public health and reduce air pollution.

MORPC identified the LEP populations within its MPO boundary, including Delaware and Franklin counties, Bloom and Violet townships in Fairfield County, New Albany, Pataskala and Etna Township in Licking County and Jerome Township in Union County. The total number of LEP persons according to the 2015-2019 Census American Community Survey (5-year estimates) is 1,492,430 or 4.60% percent. The largest LEP group in the MPO area speaks Spanish with an estimated 20,022 people. See below for a list of languages spoken within the MPO boundary.

Frequency of Contact with MORPC Services

As the MPO, LEP persons may come into contact with MORPC through participation in the transportation planning process, the Gohio program and the Air Quality Awareness program. MORPC's public involvement processes are outlined in the Public Involvement Plan (PIP), which was last updated in 2015. The PIP outlines MORPC's policies with regard to public involvement, public outreach and public comments. MORPC conducts public open houses and attends community meetings to receive input regarding the region's prioritization list or for special projects, as they may occur. Public outreach is achieved through a three-tier process; Advisory Committees, Public Outreach/Information and Project-Specific Public Involvement.

The Gohio program reaches out to the public through MORPC's website, telephone hotline, Facebook and Twitter social media, highway signs, employer programs, community festivals and fairs, summits and conferences, radio, television and newspaper advertising and interviews. Information on the program has been provided in Spanish, Somali and English.

The Air Quality program reaches out to the public through MORPC's website, telephone hotline, Facebook and Twitter social media, employer programs, community festivals and fairs, summits and conferences, radio, television and highway message signs. Information on Air Quality Alerts is provided in Spanish and English. The telephone hotline provides air quality alerts in both English and Spanish.

The Residential Energy Efficiency program and the Housing Rehab programs reach out to the public through direct mail, MORPC's website, Facebook and Twitter, community festivals and fairs and television. The Residential Energy Efficiency program has provided information in Spanish and English.

Attached is a summary of diverse populations, compiled through our Diversity & Inclusion Plan, who have requested services from MORPC. While it does not include those necessarily considered LEP, it does provide some indication of the populations utilizing our services. MORPC provides interpreters and translators, as needed, for all programs.

Nature and importance of the Service

The designation of MORPC in November 2014 as the recipient of FTA's Section 5310 funds requires consideration of the regional LEP population when providing access to people with a disability and seniors. MORPC's 5310 funds are distributed to subrecipients who provide service to people with disabilities and seniors. Air Quality Alerts, Section 5310, Gohio and MORPC Residential Energy and Housing Rehab programs provide services that benefit people with disabilities and seniors in all diverse populations.

Resources for LEP Outreach

There are several funding resources available to MORPC for LEP outreach. MORPC membership dues, through the Diversity and Inclusion program, are currently budgeted for translation and interpretation services. Program transportation funds (Public Involvement, Gohio, Air Quality and Section 5310) are also eligible for translation and interpretation services.

Translation of major transportation documents has been researched and found to be extremely costly, especially in Somali. A focus group was held with members where English is their second language (ESL) to determine if it would be beneficial to translate MORPC's large technical transportation documents. The members of the focus group felt that it would not be beneficial, but a less expensive option, the translation of applications, brochures, newsletters, one-page fact sheets, and executive and popular summaries would be more appropriate. See attached.

MORPC will continue to reach out to the LEP community and provide language translation and interpretation services when practical and in consideration of the funding available. When applicable, the translation of documents will begin after the final English version has been completed. Some documents, such as brochures, can be produced in multiple languages in the same document where size is not an issue.

Based on the four-factor analysis, MORPC has developed its LEP Plan as outlined in the following section.

Historical and Current Efforts

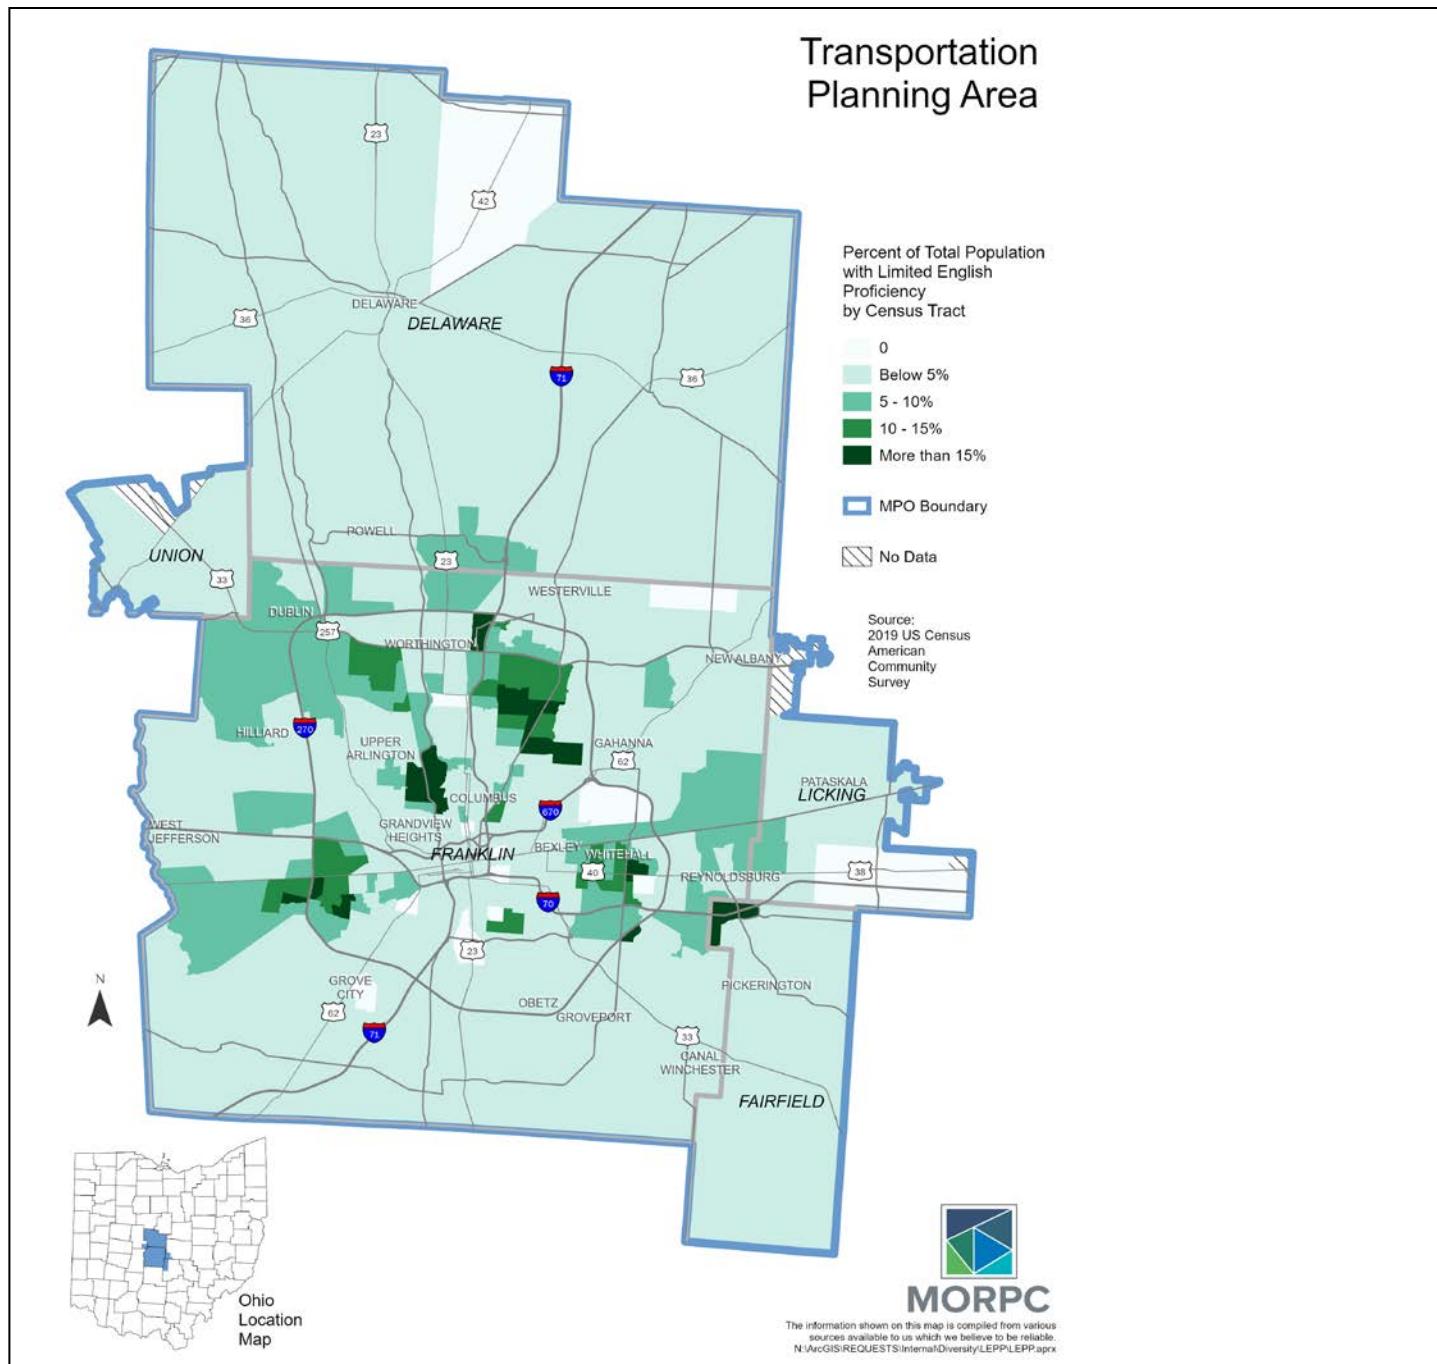

Previously, MORPC completed a Limited English Proficiency Summary that identified the three primary LEP populations and their locations in the MPO planning area. When seeking input on our transportation planning process, special projects, and communicating the availability of our services and programs, MORPC has utilized a variety of tools in reaching out to our LEP populations, which include the following:

- A language translation tool on its website
- *Language Identification cards* available in the front lobby for walk-ins
- Process created to assist persons with limited English proficiency
- Partner organizations within the Latino and Asian communities that assist MORPC in outreach to LEP individuals specifically and to the Latino community in general (Hispanic Coalition, Empleos & Employment, Columbus New Americans, US Together, Council on World Affairs)
- Title VI notice to the public in English and Spanish located in MORPC's Lobby and Lounge
- Air Quality Hotline in Spanish
- Air Quality brochure produced in Spanish and English
- Weatherization flyers produced in Spanish
- Gohio radio ads produced in Spanish
- Gohio postcard produced in English
- Gohio television ads produced in Somali
- Table display at the Somali Mall, Latino Job Fairs, Columbus International Festival and Asian Festival
- Advertisements placed in event programs
- Intercept surveys conducted at a Hispanic grocery store/restaurant

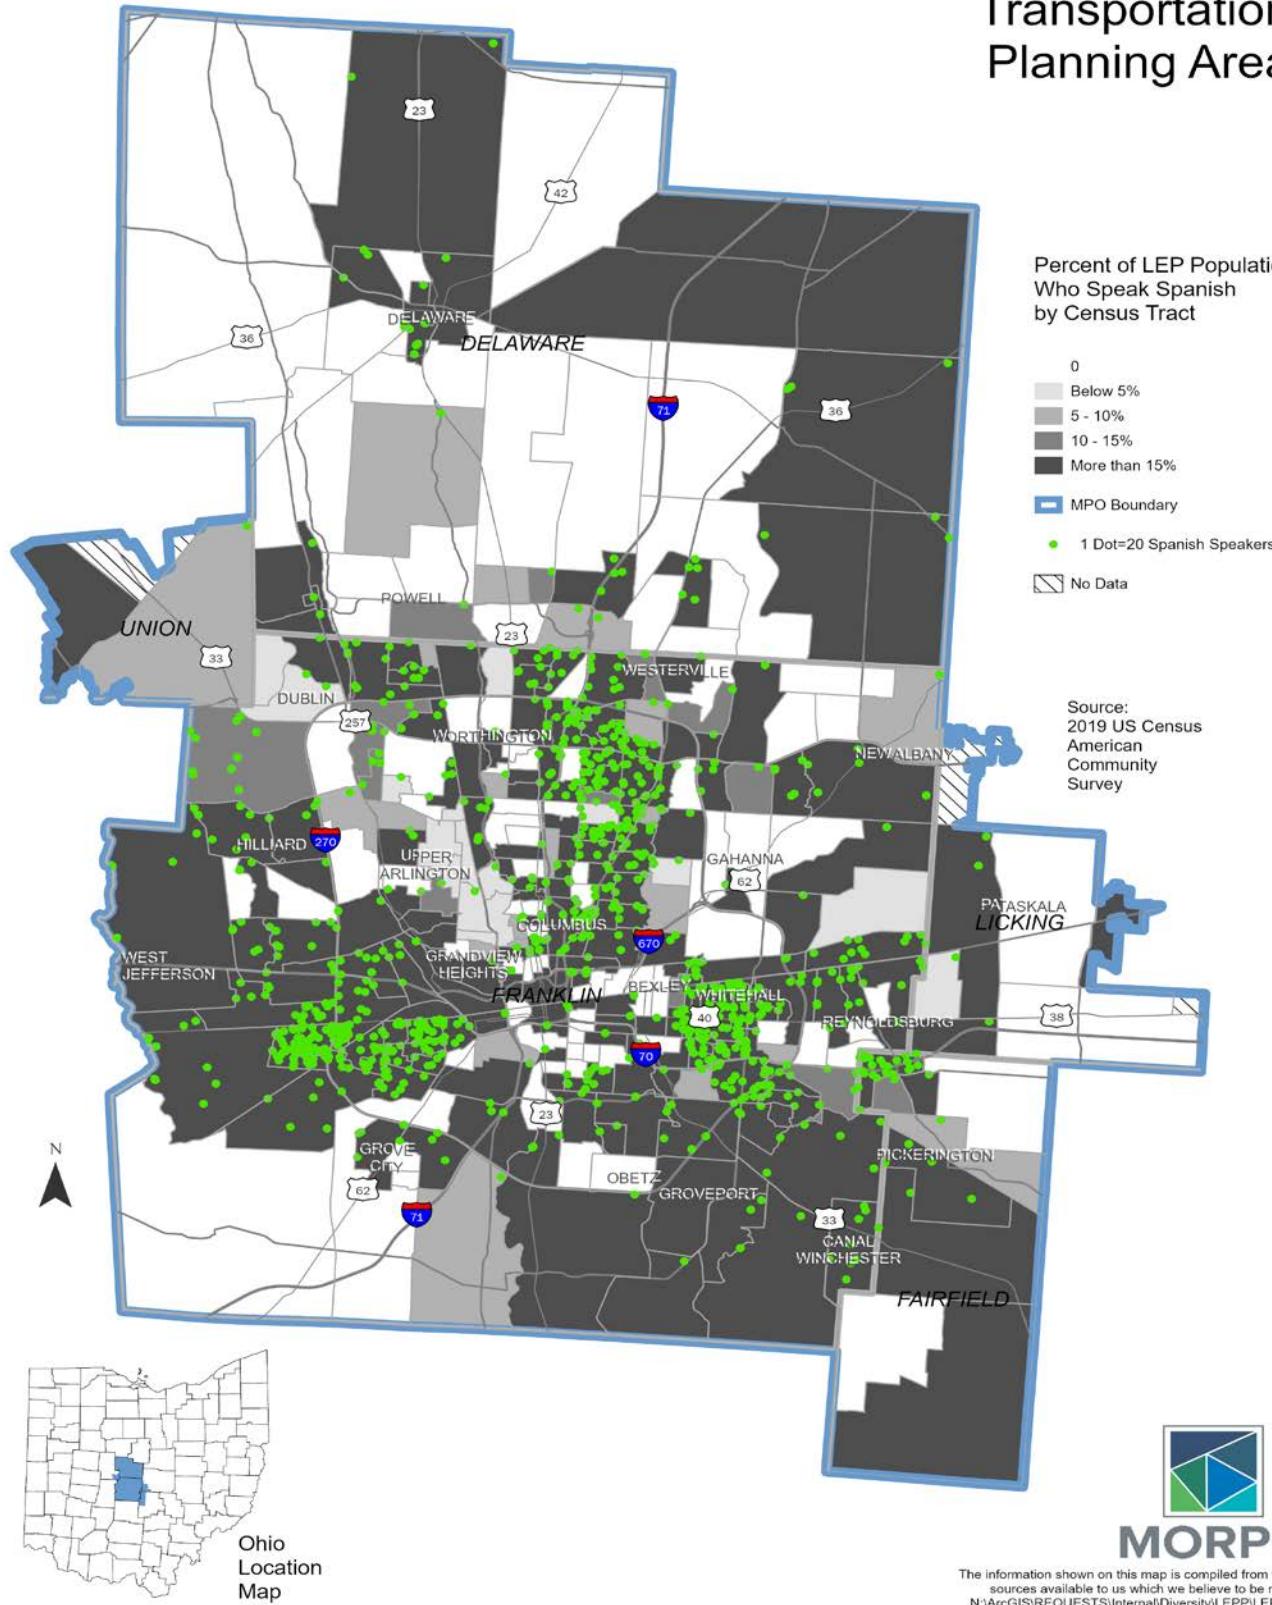

Identification of LEP population

The LEP population was mapped to show LEP individuals as a percent of total population by census tract as shown in the attached map. There are several concentrations of LEP populations located mostly in Franklin County. These areas include: around Morse Rd., and SR3/Cleveland Ave, between SR 161 and I-270, The Ohio State University, along SR 33 south of SR 161 and along west I-270 and West Broad Street. Individually, Spanish-speaking LEP populations are located throughout Franklin County, and Chinese-speaking primarily on the Northwest side of Franklin County. The “Other,” languages are fairly scattered throughout Franklin County, as well.

Language Assistance Measures

MORPC prides itself on reaching out to the public by attending community and neighborhood meetings to present information on the transportation planning process. Before attending a community meeting to present the long-range transportation plan or the transportation improvement program, MORPC will determine if an interpreter and translation of the information is needed. With special projects or to gain access to LEP neighborhoods, MORPC utilized representatives from the City of Columbus's New Americans Initiative and utilized staff who speak alternative languages when attending/hosting meetings in the region. To accommodate this population, staff has held meetings in the Somali Mall, Hispanic grocery store/restaurant, Hispanic churches, ESL schools and neighborhood centers.

MORPC pays particular attention at open houses or public meetings to determine who may exhibit low literacy skills. In the past, MORPC has asked participants to notify us when an interpreter was needed. While we have not needed an interpreter at MORPC open houses or public meetings, our Residential Energy and Gohio programs have utilized this service. MORPC's Air Quality Alert program's hotline is provided in English and Spanish.

Interpreters can attend meetings to accommodate participants who don't speak English or speak English, "less than very well." When an interpreter is needed, in person or on the telephone, staff will attempt to determine what language is required and then access language assistance services.

MORPC continues to make every effort to arrange for translation, sign language or other special assistance at meetings for individuals with special needs who request them before the meeting. To date, there have been no such requests.

In the past, MORPC has surveyed its employees to determine those who can fluently speak another language. We have from time to time utilized staff to record a hotline script in an alternative language. Due to changes in personnel, MORPC will conduct another survey to determine employees who are bilingual and include a request for this information in employee orientation.

Along with the annual tracking of diverse populations in the Diversity & Inclusion Plan, MORPC will track and monitor the efforts to serve LEP populations by the following:

- Frequency of encounters seeking interpreters or translation services
- Nature and importance of activity to LEP persons
- Agency documents translated into alternative languages
- Distribution of translated outreach material (location, frequency, number)

Providing Notice to LEP Persons

When staff schedules a meeting for which the target audience is expected to include LEP individuals, outreach material will be printed in the alternative language and a request will be made for an interpreter. Brochures, maps, applications and other publications will be made available in an alternative language when a specific LEP population is identified. Information will also be distributed to area libraries within the targeted areas in alternative languages.

MORPC works closely with the City of Columbus neighborhood and civic organizations. We request that they inform us when translation or interpretation services are needed especially in targeted areas.

MORPC will let LEP persons know that language services are available free of charge by the following:

- Notice placed in outreach material
- Providing notices in newspapers, radio and television stations whose audiences are LEP populations about the availability of language assistance services
- Notice to contractors and subcontractors of their obligation to provide language assistance to LEP individuals who participate in their programs and services and/or to whom services are provided

Employee LEP Training

MORPC employees go through a Diversity and Inclusion training to prepare and educate them on the region's changing population. MORPC also will provide training to include a process on how to serve people who speak English, "less than very well." Many front-line employees are already familiar with a process on how to obtain interpretation services for that population. The training will be expanded to include other MORPC staff and all new hires.

The following training on MORPC's Title VI Policy and LEP responsibilities provided to MORPC's staff will include:

- Types of language services available.
- Process to serve LEP individuals when they call in, walk in or attend a public meeting hosted by MORPC.
- How to respond to written communications from LEP persons.
- Documentation of language assistance requests.
- The process to handle a potential Title VI/LEP complaint.

Expansion of Outreach Efforts

MORPC will expand its LEP outreach efforts to also include:

- Posting a Title VI complaint form on MORPC's website in Spanish.
- Posting a Title VI notice to the public in Spanish on the website.
- Producing outreach material (applications, GRH, TIP Popular Summary, TIP brochure, printed newsletters and one-page fact sheets) in Spanish.
- MORPC will survey its employees to determine those who speak another language fluently. This request will be included in new employee orientations.
- The outreach material produced in alternative languages will be distributed to metropolitan libraries located in the target areas identified in the map. See Page 8.

Evaluation and Update

MORPC will update the LEP Plan as required by U.S. DOT. At a minimum, the plan will be reviewed and updated when data from current and future U.S. Censuses are available, or when it is clear that higher concentrations of LEP individuals are present in the region.

Updates will include the following:

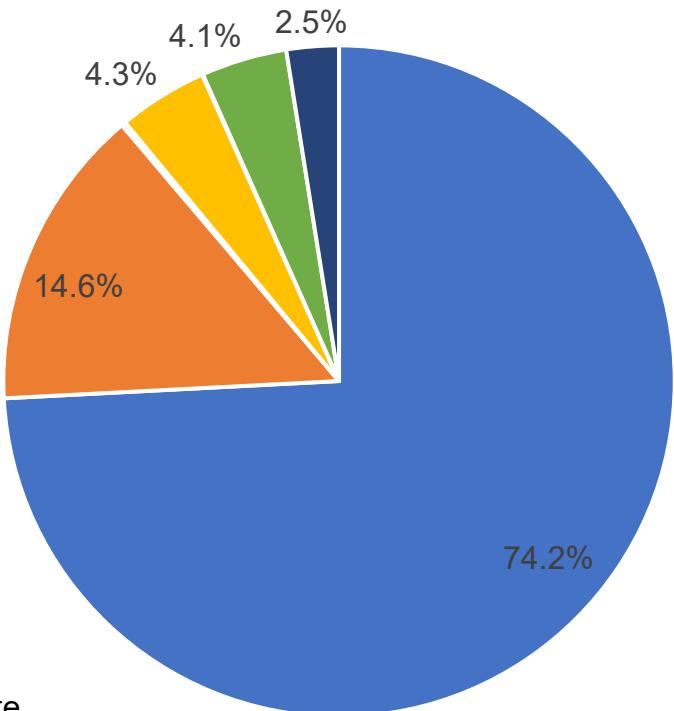

- The number of documented LEP person contacts encountered annually.
- How the needs of LEP persons have been addressed.
- Update of LEP population in the region.
- Determination as to whether the need for translation services has changed.
- Determine whether local language assistance programs have been effective and sufficient to meet the need.
- Determine whether MORPC's financial resources are sufficient to fund language assistance resources needed.
- Determine whether complaints have been received concerning the agency's failure to meet the needs of LEP individuals.
- Develop criteria for deciding which materials will be translated.
- Explore the feasibility of producing outreach material in languages other than English and Spanish.

Questions regarding this plan should be submitted to Ralonda Hampton, Diversity, Inclusion and Engagement Officer, Mid-Ohio Regional Planning Commission, 111 Liberty Street, Suite 100, Columbus, OH, 43215, rhampton@morpc.org, 614-233-4157.

Limited English Proficiency Summary

September 2021

The Mid-Ohio Regional Planning Commission (MORPC) evaluated the Limited English Proficiency (LEP) populations within its Metropolitan Planning Organization boundary (MPO). For the purpose of this analysis, LEP is defined as any individual 5 years of age or older who speaks a primary language other than English and who speaks English less than "very well," as identified by the Census American Community Survey.

MORPC identified the LEP populations within its MPO boundary, including Delaware and Franklin counties, Bloom and Violet townships in Fairfield County, New Albany, Pataskala and Etna Township in Licking County and Jerome Township in Union County. The total number of LEP persons according to the 2015-2019 Census American Community Survey (5-year estimates) is 1,492,430 or 4.60% percent.

Approximately, 4.60% of the population in the Census tracks located completely or partially within the MPO boundary speak English less than, "very well." The chart below summarizes the level of English proficiency of the population over age 5, by county.

County	Total Population 5 Years and Older	Speaks English "Very Well"	Percentage of Total Population Speaks English "Very Well"	Total LEP: Speaks English Less Than "Very Well"	Percent Total LEP: Percentage of the Total Population That Speaks English Less Than "Very Well"
Delaware	188,676	184,658	97.87%	4,018	2.13%
Fairfield*	57,872	55,825	96.46%	2,047	3.54%
Franklin	1,198,375	1,136,877	94.87%	61,498	5.13%
Licking*	34,903	34,111	97.73%	792	2.27%
Union*	12,604	12,334	97.86%	270	2.14%
Total	1,492,430	1,423,805	95.40%	68,625	4.60%

*Includes only those Census Tracts located completely or partially in the MPO boundary

MID-OHIO REGIONAL
MORPC
PLANNING COMMISSION

Interpretation Services Process

REPORTING

It is very important that you notify the Diversity Officer, that you have received a request to assist an individual who does not speak English very well. This information is **required** for reporting purposes.

Calls

When receiving a telephone call, you may not recognize the language the caller is speaking, unless they are assisted by an English speaking individual.

1. If assisted by an English speaking individual, ask what language they are speaking and confirm if they are willing to act as an interpreter.
2. If not, place the individual on hold and call the language assistance line, Ohio Hispanic Coalition (OHC), 614-880-2624.
3. Inform them of the language and conduct a three-way conference call.

Walk Ins

1. Show the language assistance sheet found at the front desk to the guest to determine language.
2. Hand gesture to have them follow you to a conference room, or if no room is available, to your office.
3. Call the Ohio Hispanic Coalition (OHC), 614-880-2624 or Asist Interpreting Services, 614-451-6744 (Ext 12), and on speaker request an interpreter or for an interpreter to come to MORPC. Over the phone interpretation is okay to schedule appointments but anything more in depth should be done in person.

If Spanish speaking, someone can interpret or come within the hour.

If another language, OHC would call us back within 10 minutes and inform us if they can have an interpreter to us within the hour.

"We have an interpreter on the way, can you please wait?" We need to provide this somehow to the guest. Usually those who do not speak English are accompanied by someone who does. If they chose not to wait, we will need a contingency plan.

There may be a MORPC staff person that can act as interpreter until someone from the Coalition or Asist Interpreting Services can arrive. Check with the Diversity Officer or Human Resources.

Interpreters cannot fill out forms or read the forms. Staff would need to read the forms and the interpreter would interpret for the guest.

Home Visits

Call Asist Interpreting Services or OHC and schedule an interpreter. If you need a Spanish interpreter, same day, with enough notice would suffice. Other interpreters require more time, perhaps days.

Need to provide the location of the assignment, date, and time.

Need to provide a phone number for the interpreter to use when they have arrived. Interpreters will not go into the home unaccompanied by staff.

Presentations

Call Asist Interpreting Services or OHC and schedule an interpreter. You need to provide:

What type of presentation

Where it will take place

How large a group

If not Spanish, you may need to schedule several days in advance.

TOME MEDIDAS PARA MEJORAR LA CALIDAD DEL AIRE

Manténgase informado. Inscríbase para recibir Alertas de calidad del aire en morp.org/airquality para que pueda saber cuándo es más importante tomar medidas.

Reconsidere su viaje. Pruebe los viajes en automóvil compartido o en furgoneta compartida, combine viajes, tome el autobús, vaya en bicicleta o camine. Visite gohiocommute.com/morpc para planificar su viaje.

Use el transporte público. Revise el sitio de la Autoridad de Tránsito de la Región Central de Ohio (COTA, Central Ohio Transit Authority) en cota.com o llame al 614.228.1776. Además, revise el sitio del Organismo del Tránsito del área de Delaware en ridedata.com o llame al 740.363.3355.

En caso de viajes cortos, use la bicicleta o camine. ¿Tiene una bicicleta y no sabe dónde ir? Use el Mapa para ciclistas del área metropolitana de Columbus en morp.org/bikemap.

Gire la llave, apague el motor. Apague el motor al detenerse en lugar de dejar el motor en marcha para disminuir la contaminación dañina del aire.

Recargue combustible después de la 8:00 p. m. Llenar el tanque después de las 8:00 p. m. y evitar llenarlo a tope disminuye la contaminación. Las emanaciones de gases combinadas con las temperaturas cálidas durante el día pueden generar ozono a nivel del suelo.

Use equipos más ecológicos para cortar el césped. Cambie sus equipos a combustible por opciones eléctricas o manuales.

Ahorre energía. Comience con una auditoría de energía para identificar las formas en las que puede sentirse más cómodo y gastar menos dinero. Para obtener información, llame a MORPC al 614.621.1171.

MANTÉNGASE INFORMADO

Manténgase informado y ayude a disminuir la contaminación del aire para proteger su salud y la de sus seres queridos.

Inscríbase para recibir Alertas de calidad del aire de forma gratuita por correo electrónico o mensaje de texto morp.org/airquality.

Llame a la línea directa gratuita de MORPC al **1.888.666.1009** para recibir la información de calidad del aire más actualizada.

MORPC no discrimina por edad, raza, color, nacionalidad, género, orientación sexual, situación familiar, ascendencia, situación militar, religión ni discapacidad en sus programas, servicios o empleos. Podrá encontrar información sobre la política de no discriminación y políticas y procedimientos relacionados de MORPC en morp.org, en Acerca de (About) MORPC/policies.

SEA CONSCIENTE DEL AIRE

EN LA REGIÓN CENTRAL DE OHIO

MANTÉNGASE INFORMADO Y PROTEJA SU SALUD Y LA DE SUS SERES QUERIDOS

MID-OHIO REGIONAL
MORPC
PLANNING COMMISSION

SE TRATA DE LA CALIDAD DE VIDA

El Programa de Calidad del Aire de MORPC hace todo lo posible para que sea más seguro respirar el aire de la región central de Ohio y para proteger la salud pública. Emitimos alertas para informarle cuándo los niveles de contaminación del aire están altos para que pueda planificar su día para mantenerse sano. Además, entregamos sugerencias sobre cómo tomar medidas para mejorar la calidad del aire para todos.

¿QUÉ RESPIRAMOS?

La contaminación por ozono a nivel del suelo, que es nocivo respirar, se genera cuando las emisiones de los vehículos, las centrales eléctricas, las máquinas para cortar césped y las industrias tienen una reacción química en presencia de la luz del sol.

La contaminación por partículas es producida por automóviles, centrales eléctricas, incendios forestales, calefacción residencial a leña e industrias. Algunas de las partículas son tan pequeñas que pueden introducirse en los pulmones, lo que puede causar problemas de salud graves.

La calidad del aire en la región central de Ohio ha mejorado con los años, pero aún queda trabajo por delante para cumplir con los estándares de salud mínimos fijados por la Agencia de Protección Ambiental (EPA) de los Estados Unidos.

SEA CONSCIENTE DEL AIRE QUE RESPIRA

Use el pronóstico de calidad del aire de MORPC y las Alertas de calidad del aire para planificar con tiempo. Inscríbase gratis en morpco.org/airquality. Cuando se espere que la contaminación del aire llegue a la categoría 101 o a un nivel "nocivo para grupos sensibles," MORPC emitirá una Alerta de calidad del aire para la región central de Ohio.

ÍNDICE DE CALIDAD DEL AIRE (Valores AQI)	0 - 50	51 - 100	101 - 150	151 - 200	201 - 300
NIVELES DE PREOCUPACIÓN PARA LA SALUD	BUENO	MODERADO	NOCIVO PARA GRUPOS SENSIBLES	NOCIVO	MUY NOCIVO

LA CONTAMINACIÓN DEL AIRE Y SU SALUD

El ozono a nivel del suelo y la contaminación por partículas en el aire pueden afectarnos a todos, en especial a ciertos grupos de personas sensibles. Estos grupos sensibles incluyen a niños y adultos que realizan actividades al aire libre, personas con enfermedades cardíacas o pulmonares (como el asma y EPOC) y adultos mayores.

BUENO	ES UN DÍA GENIAL PARA REALIZAR ACTIVIDADES AL AIRE LIBRE.
MODERADO	ES UN DÍA GENIAL PARA REALIZAR ACTIVIDADES AL AIRE LIBRE.
NOCIVO PARA GRUPOS SENSIBLES	SI ES SENSIBLE A ESTA CALIDAD DEL AIRE, TOME DESCANSOS Y DISMINUYA EL NIVEL DE ACTIVIDAD. PLANIFIQUE LAS ACTIVIDADES AL AIRE LIBRE DURANTE LA MAÑANA.
NOCIVO	TOME DESCANSOS Y DISMINUYA EL NIVEL DE ACTIVIDAD AL AIRE LIBRE. PLANIFIQUE LAS ACTIVIDADES AL AIRE LIBRE DURANTE LA MAÑANA.
MUY NOCIVO	REALICE ACTIVIDADES BAJO TECHO.

TRASLADO DE EMERGENCIA AL HOGAR
(ERH, EMERGENCY RIDE HOME)

¡Hasta cuatro viajes al año!

¿Qué es el ERH?

El automóvil compartido, la furgoneta compartida, el transporte público, caminar y andar en bicicleta son modos económicos y sostenibles para viajar todos los días al trabajo, pero ¿qué sucede si tiene una emergencia, se enferma o debe realizar horas extraordinarias imprevistas y no puede hacer arreglos para un traslado compartido al hogar desde el trabajo?

Ahora se puede inscribir para el Programa de Traslado de Emergencia al Hogar (ERH). En caso de un imprevisto, puede tomar un taxi hasta su hogar sin costo.

¿Cómo funciona?

El programa ERH es un servicio gratuito que asegura que los pasajeros interurbanos no queden varados en el trabajo en caso de emergencia. Los usuarios interesados deben solicitar participar en el programa. Una vez aprobado, simplemente inicie sesión en su cuenta de Gohio Commute y redima su viaje de taxi cuando surja una emergencia. No se necesitará ningún pago: ¡incluso la propina está cubierta! Este programa es válido para cuatro viajes en un año calendario.

¿Cómo me inscribo para ERH?

Para inscribirse, simplemente llene el formulario de registro en morpc.gohio.com/erh e indique su interés en el programa ERH. El personal del programa evaluará su solicitud y, si se aprueba, se pondrá en contacto con usted dentro de 72 horas.

Condados que cuentan con el servicio:

Delaware	Madison

Una alternativa más inteligente

RECONSIDERE SU VIAJE

Quiénes somos

Gohio Commute, un programa de la Comisión de Planificación Regional de Mid-Ohio (MORPC, Mid-Ohio Regional Planning Commission), proporciona recursos a los pasajeros interurbanos y a las empresas para ayudarlos a explorar sus opciones de traslado rentables y amigables con el medio ambiente. El programa busca reducir la congestión de las carreteras y mejorar la calidad del aire en el centro de Ohio.

Automóvil compartido

Reduzca el estrés y ahorre dinero mediante automóviles compartidos. Gohio Commute evaluará sus necesidades y encontrará a alguien con limitaciones de traslado similares que esté interesado en compartir el viaje hasta el trabajo.

Transporte público

No quede atrapado en embotellamientos. Explore las rutas de los autobuses con Gohio Commute y convierta su tiempo invertido en trasladarse, en actividades productivas.

Andar en bicicleta o caminar

Mantenga su corazón saludable yendo al trabajo en bicicleta o a pie. Gohio Commute proporciona información acerca de rutas locales para andar en bicicleta y caminar. Podemos buscar coincidencias con otras personas que caminan o van en bicicleta a su trabajo.

Furgoneta compartida

Una furgoneta compartida de Gohio Commute se trata de un grupo de pasajeros interurbanos, que se trasladan juntos hacia el trabajo de forma regular en una furgoneta que los transporta. Los pasajeros comparten una cuota mensual asequible que cubre el uso de la furgoneta, el seguro, el mantenimiento, la asistencia en carretera y el combustible pagado por anticipado.

Beneficios de un traslado más inteligente

Económico

Productivo

Saludable

¿Me conviene la furgoneta compartida?

- Si maneja 30 minutos o más, si viaja 20 millas o más solo de ida hacia su trabajo.
- Si mantiene un horario de trabajo estable.
- Si vive y trabaja en la misma ruta que otras 6 a 15 personas que también desean utilizar la furgoneta compartida.

¿Cuáles son los beneficios?

- Ahorra cientos de dólares en costos de traslado.
- MORPC proporciona un subsidio mensual por furgoneta compartida para aquellas que califiquen.
- Reduce el desgaste de vehículos particulares.
- Transporte cómodo, seguro y confiable.
- Escápese del agotamiento y estrés diario de la congestión vehicular.
- Convierta el tiempo de traslado en tiempo productivo para leer, navegar en Internet, ponerse al día con el trabajo o dormir.
- Haga nuevos amigos con las personas que viajan en la furgoneta.

¿Cómo empezamos?

Comuníquese con nosotros al 1-888-742-RIDE y trataremos de ubicarlo en una furgoneta compartida existente u organizaremos una nueva. Cuando se organice una furgoneta compartida nueva, el personal de Gohio Commute brindará ayuda en todos los pasos que conllevan a la distribución de pasajeros en furgoneta.

Servicios para el empleador

Gohio Commute ofrece ayuda con políticas y programas de diseño elaborados específicamente para las necesidades individuales del empleador. El personal informado ayudará a los empleadores a resolver problemas de estacionamiento y transporte hacia los lugares de trabajo. Visite morpccohio.com/workplace para solicitar ayuda.

Servicios para pasajeros interurbanos

En el sitio web de Gohio Commute, los usuarios pueden explorar las opciones exclusivas de traslado, investigar el impacto holístico de su método de transporte, encontrar un compañero de traslado, inscribirse en programas de incentivos o inscribirse para el Traslado de Emergencia al Hogar.

Para obtener más información acerca de Gohio Commute, visite morpccohio.com o llame al 1-888-742-RIDE.

El sitio web de Gohio Commute es compatible con dispositivos móviles. Asegúrese de marcarlo como una de sus páginas favoritas.
