

I. Status of 49 USC 22905(c)(1) Agreement

Negotiation of this agreement has not yet commenced. Columbus has already briefed Norfolk Southern on this CRISI application and the proposed grade separation project. Norfolk Southern has provided a letter of support for the project. It also provided contact information for Columbus to use to once the project has been funded and the city is ready to negotiate the necessary agreements. Columbus anticipates this agreement will be completed without undue delay once the project commences.
