

## Appendix F- Fairfield County Components

The 2023-2050 CORPO Transportation Plan is updated every five years and covers transportation needs for the entire region. The plan includes regional transportation goals, objectives, and performance measures, summarizes population and economic trends for the CORPO planning area, describes CORPO’s multimodal transportation system and its conditions, and identifies strategies and projects associated with the management and development of the CORPO transportation system.

This County Components appendix is intended to supplement the content in the 2023-2050 CORPO Transportation Plan document, providing a copy of the seven-county information included in the document, with a highlighted focus on data for Fairfield County.

Sections in this appendix correspond with chapters in the full document text. This appendix provides highlighted data for Fairfield County without additional analysis or context. For context and analysis about each measure provided in this appendix, reference the corresponding chapters of the full plan document, listed below.

- Fairfield County Population, Employment, and Households Overview- [Chapter 2, Regional Trends and Conditions](#)
- Fairfield County Transportation System- [Chapter 3, The Regional Transportation System](#)
  - [Appendix A: Inventory of Bridge Conditions](#), for a complete inventory of bridges and condition ratings as of 2023.
- Fairfield County Projects- [Chapter 4, Recommended Strategies and Projects](#)

### **F.3 Fairfield County Projects**

To carry out the strategies, priority transportation projects have been identified through data analysis and stakeholder engagement. The projects include those that add roadway capacity, provide bicycle and pedestrian facilities, or enhance transit systems. Some of the identified projects encompass the ongoing operation, maintenance and preservation, or study of the existing transportation system.

Each project priority listed includes a brief project description and cost estimate in year of construction dollars, based on its prioritization as near- or long- term between 2023 and 2050.
