COMMUNITY ADVISORY COMMITTEE

MORPC

- Composed of members of the public
- Acts in an advisory capacity to MPO Board as liaison to the public
- Provides interaction and two-way communication between participants and staff about the planning process.
- Ensures that all plans and programs give consideration to possible social, economic, energy and environmental issues.
- Implements the Public Involvement Process relating to public participation and advise on public involvement strategies

TRANSPORTATION ADVISORY COMMITTEE

- An advisory body to the MPO Board (Transportation Policy Committee) for transportation issues, primarily technical in nature
- Guides MPO technical work and develops recommendations on projects and programs for Transportation Policy Committee's consideration
- Usually composed of staff-level officials of local, state & federal agencies
- May have standing sub-committees, for example ATC, ITS
- May create ad hoc sub-committees

The 2024-2050 Metropolitan Transportation Plan (MTP) establishes a set of regional transportation goals and objectives and recommends strategies—including projects—that will maintain, manage, and develop Central Ohio’s transportation system through 2050.

REGIONAL GOALS

By guiding investment in transportation and mobility infrastructure and services in Central Ohio, the MTP identifies strategies to advance the following six goals:

Create sustainable neighborhoods to improve all residents' quality of life.

Increase regional collaboration and employ innovative transportation solutions to maximize the return on public expenditures.

Position central Ohio to attract and retain economic opportunity to prosper as a region and compete globally.

Provide transportation and mobility to benefit the health, safety, and welfare of all people.

Protect natural resources and mitigate infrastructure vulnerabilities to maintain a healthy ecosystem and community.

Reduce per capita energy consumption and promote alternative fuel resources to increase affordability and resilience of regional energy supplies.

Through our Transportation Improvement Program (TIP), residents and communities can see what transportation projects in their area are receiving funding during the next four years.

It includes:

- Listing of the projects and programs*
- Specific funding sources we have committed to each*
- All projects receiving federal funding*
- Prioritizes the actions for performance targets established in the MTP*

MTP VS. TIP

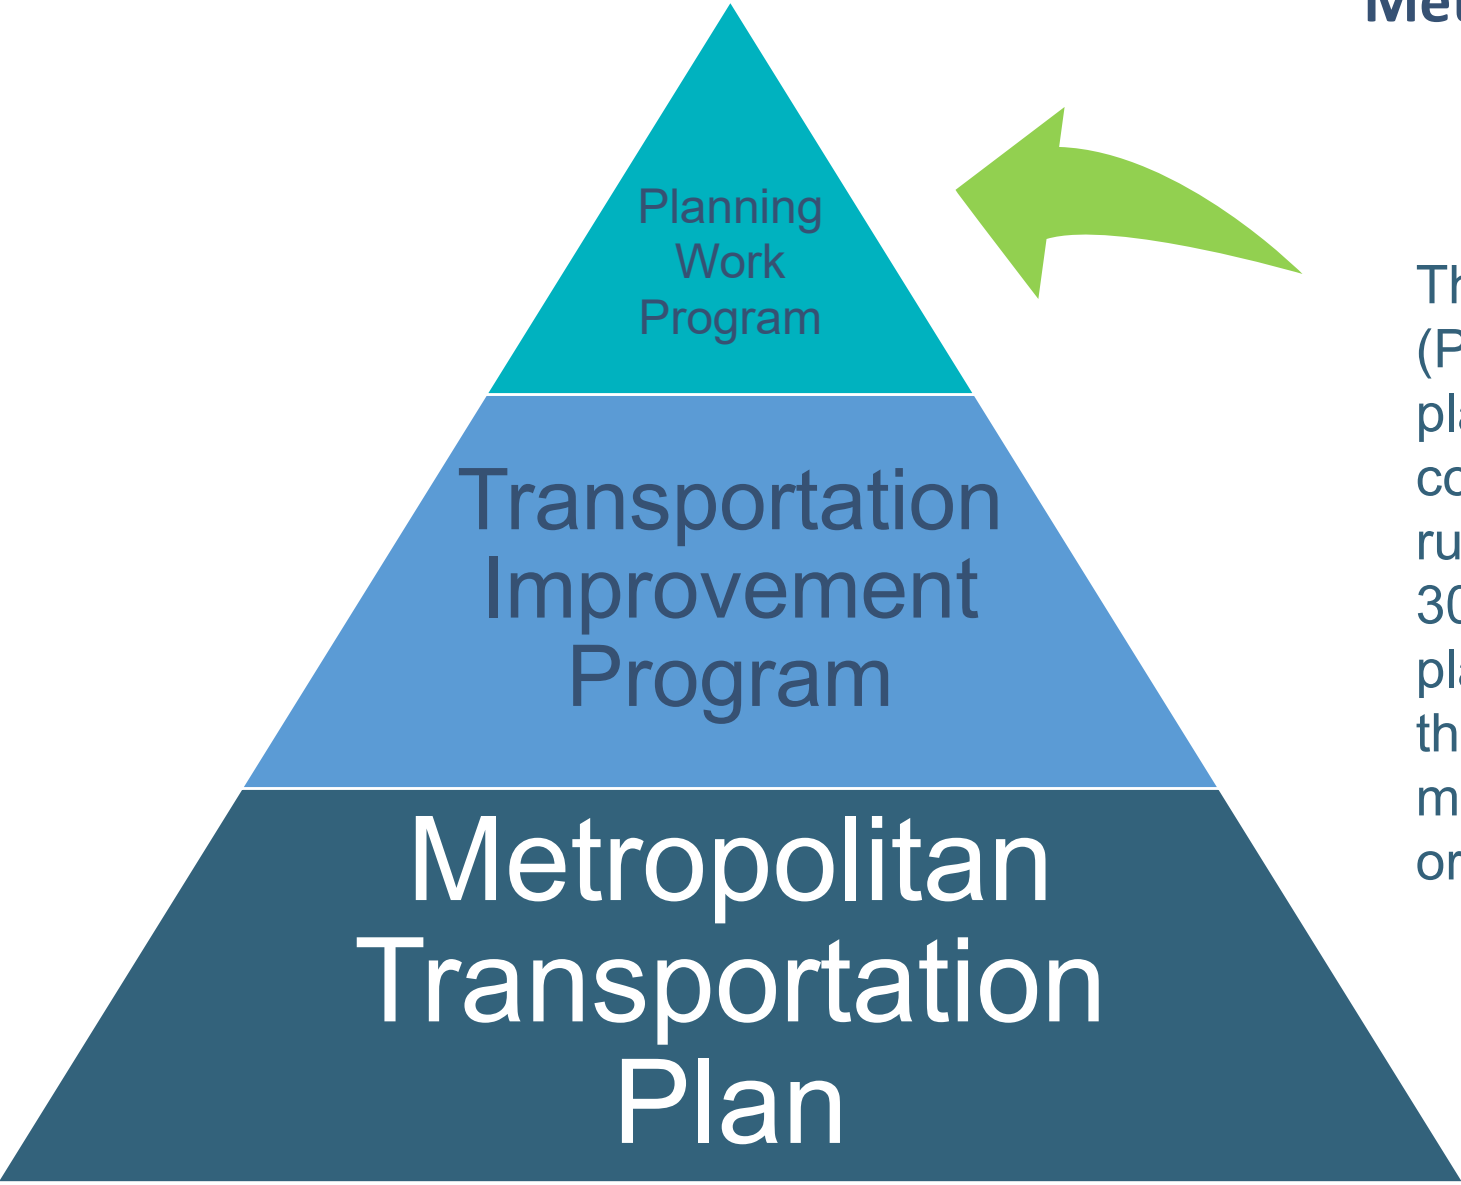

MORPC

MTP	vs.	TIP
Both part of the continuing, cooperative, & comprehensive (3-C) planning process		
Sets transportation goals & policies through 2050		Identifies specific projects & activities in each year through 2027 (SFY 26-29 TIP to be adopted in May)
Estimates available resources through 2050		Identifies specific funding sources committed to each project & activity
Identifies desired changes to the system (projects) within available resources		Projects <u>must</u> be in the MTP
Updated entirely every 4 years, rarely amended		Updated entirely every 2 years, amended quarterly or more often

PLAN IMPLEMENTATION & WHAT'S NEXT

Metropolitan Planning Organization *Required Products*

The Planning Work Program (PWP) describes the transportation planning, projects and studies we conduct during the state fiscal year running from July 1 through June 30. It is one of three major planning documents mandated by the federal government for metropolitan planning organizations.
